## About Net4Mobility

Net4Mobility is a transnational cooperation project between the National Contact Points (NCPs) of the EU Marie Skłodowska-Curie Actions (MSCA).

The project aims to help NCPs improve the service provided to interested parties all over the world, and increase awareness of the MSCA funding possibilities.

### Among our Services

- Explain relevant possibilities
- Help find the best option for you
- Assistance throughout the whole process

## WE ARE HERE FOR YOU!

## Research and Innovation Staff Exchange (RISE)

RISE supports mobility of researchers, technical, administrative and managerial staff of all nationalities and at all career levels. It is open to partnerships of universities, research institutions and non-academic organisations both within and beyond Europe.

- An action that helps you develop sustainable collaborative projects.
- Exchange of best practice across borders and sectors.
- It's for managerial, administrative and technical staff as well.

**Who?** Academic institutions and non-academic organizations

**What?** 100% funding for up to 4 years

**Where?** Europe and Third countries

**When?** Call deadline every year!

# Tips & Tricks for writing a good RISE proposal

## General

### Closely follow the call requirements

Be in line with the actions' objectives and rationale.

### Follow the guideline's instructions

Use the structure provided in the template and address all the evaluation criteria.

### Sustainability of collaboration

Describe the benefits of cooperation and how it can potentially go beyond the phase of EU-funding.

### Start early and submit the right proposal on time

### Highlight the EU-Dimension

Show that your proposal addresses EU policy or societal challenges being faced in the EU and beyond.

### Get a second opinion

Have your proposal proof-read by a colleague and pre-screened by your NCP.

## Excellence

### Describe the added value

Describe how the consortium is more than the sum of its parts with complementarity and synergy between partners.

### Emphasise original and innovative aspects

Use clear and concise language when describing the innovative aspects of the research - get beyond the state of the art.

### Knowledge sharing/transfer is crucial

Outline all of the knowledge transfer/sharing among the participants and highlight the expertise and specific contribution of each partner involved.

### Highlight all cross-barriers aspects

Make sure all of the international, inter/multidisciplinary and cross-sectoral aspects of the project are evident.

## Impact

### It's about Impact

Think about impact on different levels, for the Researchers, the Beneficiaries, European level or others.

### Spread the news

Disseminate your results to specific target groups (academic circles, general public) and specify how your impact can be measured.

### It's about taking researchers further

Explain how the project will provide opportunities for individuals to acquire acquisition of new skills, knowledge and/or experience that advances their professional carriers.

### Intellectual Property issues are important

Intellectual Property Right issues tend to be neglected. A credible strategy for managing IP can help you get extra points.

## Implementation

### Monitoring and Risks

Coherent plans to monitor your projects progress and mitigate risk pay off and can increase the credibility of your proposal.

### What, how and by who?

Be very clear on the parameters of the work, the objectives you aim to achieve and the project's overall management.

### Outline strong points of each partner

A good record relevant in a research field, special facilities and significant collaborations make for an environment that's conducive to research.

### Pay attention to your Gantt Chart

Project deliverables and milestones should be clearly presented.
